OVERVIEW

Jore Designs is a graphic design and advertising company that creatively brings ideas into reality and help promotes brands.

WHAT WE DO: We are into designs, printing and photography.

GOALS AND MISSION: We are passionate about designing and creativity to help solve problems. We look forward to helping clients solve their problems build our portfolio and attract new clients.

PROJECT DESCRIPTION

As part of advertising and promoting our brand we would like to design and develop a website to make our services known and also interact with current clients and attract new clients. The website would contain 5 pages which includes Home, About Us, Our Works, Contact and a Video page for promotional Ad Videos. The videos will be embedded in our website. Also contain a downloadable design brief and a working contact.

COLOURS AND TONE OF VOICE

We would like you to work within the colours of black and white respectively **ffffff** and **000000** and a little touch of gold. It should be creative and unique. The language used should be corporate and very persuasive. It should also prove we are experts and we know what we about.
